For further in formation call at the office of DIX, EDWARDS & Co., Publishers, No. 371 Broadway. to M. W. LYON, No 926 Broadway, 2d at my

somitably fitted for the restorance of a parameter fairfield, or to M. W. LYON, No. 928 Broadway, 2d stury.

FARM LANDS for SALE.—The ILLINOIS CENTRAL RAILROAD C'MPANY is now propared to sell about TWO MILLIONS of ACRES of FARM IN G. LANDS, IN TRACTS OF FORTY ACRES AND UPWARD, On Long Circlita and at Low Rates of Interest.

These ands were greated by the Government to ail in the construction of this Railroad, and are among the richest and most fertile in the State. They extend with the Railroad, and are among the richest and most fertile in the State. They extend with the Railroad, and are among the richest and charge on the north-east to Cairo at the couth, and thence to Gelena and Dunielth in the extreme north-western part of the State. Most of these lands lie immediately on, and within at miles of the Road, and more are more than fifteen miles distant from it; hence, ready and cheap facilities are formished for mansporting their protucts to any of the Ras ern or Southern markets. The great increase of population by immigration, ko, and the consequent rapid frowing though on the size, furnish a substantial and growing home demand for every kind of farm and arden produce.

In the northern and central parts of the State Pairie Lands predminiarte, interspersed with magnificent growes of oak and other timber; in the southern the timber is more abundant and exceedingly valuable.

The coal is a cark rich mold from one to five feet in depth, is gently rolling, and peculiarly fitted for grazing cartle and sheep, or the odivation of wheat, Indian corn, &c. The air is pure air dorson, the climate more healthy, mild and equable than that of any other part of the Union, while living streams and springs of excellent water abound.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stamps grubbed, or stone picked off, as generally the case in outlivating new land is the older States. The first crop of indian corn planted on the newly-

payment will become due at the end of the sixth year from the date of the contract, and the lands are not subject to taxation till finally paid for.

INTERAST WILL BE CHARGED AT ONLY THREE PER CENT PER ASSUM.

As a security to the performance of the contract, the first two years interest must be paid in advance, and it smust be understood that at least one-tenth of the land purchased shall yearly be brenght under cultivation. Twenty per cent from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

Ready-framed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons.

They will be 12 feet by 20 feet divided into one living and three befrooms, and will cost complete, set up on ground chosen any where along the read, \$450 in cash exclusive of transportation. Larger buildings may be contracted for a proportionate rates. The Company will forward all the materials for such buildings over their road promptly.

It is believed that the price, ions credit, and low rate of interest charged for these Lands, will enable a man with a few bondred dollars in each and ordhuary industry to make himself independent before all the purchase money becomes due in the mean time, the rapid actifement of the country will probably have increased their value four or five-fold. When required, an experienced person will accompany applicants, to give information and sid in selecting lands.

Curculars, containing numerous instances of successful farming, signed by respectable and well-known farmers living in the right-probably for the required price of the results of the country will be cheerfully given on application, either personally or by letter, in English. French or German, addressed to JOHN WILSON, Lend Commissioner of the Illinois Central Railroad Company.

Office's Illinois Central Railroad Company.

Office's Illinois Central Railroad Company.
